Dear Mrigrajsingh,

Thank you for contacting Microsoft Volume Licensing Customer Service team and I am glad to be of assistance.

Based on your email, I understand that **you want to know about the license status showing as expiring in April 2018 in VLSC portal and you would like to get clarification on the status.** Please correct me if I am wrong.

Mrigrajsingh, please be advised that, as you said that the license you have purchased is actually **OPEN** license. Please be informed that **Open licenses are perpetual license.** Meaning to say, there is **no expiry date** for this type of license and it's for lifetime.

The Expiry date which was shown in the VLSC portal is for **Software Assurance.** It is only applicable if you have purchased Software Assurance together with your license. As far there is **NO Software Assurance was purchased**, you may kindly ignore the expiry dates.

Mrigrajsingh, hope the above clarification is sufficient for your enquiry. Please feel free to contact us if you need more clarification on Volume Licensing Products.

Thank you for your continued support towards Microsoft products and services.

Best regards!

Importance: High

Dear Team,

We are Microsoft Reseller and have sold Microsoft licenses to one of our esteemed customer recently.

We would request your help explaining us Start Date and End Date mentioned in attached screen shot.

Also please help confirming if it has any license validity issue with mentioned licenses in the screenshot. (Being sold licenses are perpetual, are there any chances of any license getting expire at mentioned end date of 30th April 2018??)

Thanks & Regards,

Rajiv Mandalia
