NOTE

Sub:-MS - - Approval for creation of PR for procurement of PCs & peripherals for FY 2024-25

Note #1 ARCHIE KUMAR, PLANT MS MANAGER1, 17-Feb-2024 10:23 AM

Sub: Approval for creation of PR for procurement of PCs & peripherals for FY 2024-25.

About 450 PC nodes are today in-use at KRIBHCO, Surat plant. These comprise of mostly Windows 10 & 11 OS however there are about 100+ PCs running obsolete Windows 7 OS and about 50+ running the obsolete Windows 8 OS. Approval for phase wise replacement of older PCs was accorded in Year 2022 and since then each financial year we have been replacing older generation PCs with new Windows 11 PCs. In FY 2024-25 we intend to procure 70 PCs with MS Office for replacement of all windows 7 PCs employed by grade G2 and above employees.

The intended group of employees tend to use their PCs extensively in their daily work and are facing performance issues. Therefore, in-order to replace the PCs at the earliest MS department plans to place the PR using available WBS so that the PO can be created in the month of April once the budget is sanctioned. Further, we have proposed 90 Lacs budget for PC & peripherals for the financial year 2024-25.

In addition to PCs most of the printers being operated in plant have been procured in the year 2006. These old printers are also being replaced in phased manner and therefore it is intended to procure 25 Nos. of printers in FY 2024-25.

A laptop with MS Office is required for use by MS Department to test networking equipment in server room as well as remote locations. This shall replace the old windows 7 laptop being currently employed for the purpose.

In view of above, it is proposed to initiate necessary procurement for FY-2024-25 in advance in the current month. On approval, PR will be initiated using currently available WBS and during the placement of PO original WBS shall be used.

Submitted for approval.
