## 1. Environment Details

- PHP Version: 8.1
- Laravel Framework: 10
- Database MySQL
- Web Server: Apache
- Text Editor: Visual Studio Code

## 2. Database Configuration

- Database Name: your\_database\_name
- Username: your\_database\_user
- Password: your\_password
- Host: 127.0.0.1 (or other if remote)
- Port: 3306 (default for MySQL)

Configure the .env file in Laravel for database connectivity:

### .env File

- DB\_CONNECTION=mysql
- DB\_HOST=127.0.0.1
- DB\_PORT=3306
- DB\_DATABASE=your\_database\_name
- DB\_USERNAME=your\_database\_user
- DB\_PASSWORD=your\_password

## 3. Laravel Specific Configuration

- **Configuration Caching:** Run `php artisan config:cache` in production to cache configuration files for better performance.
- **Route Caching:** Run `php artisan route:cache` for optimized route loading.
- **Optimizing Autoloader:** Use composer install --optimize-autoloader for production.
- **View Caching:** Run `php artisan view:clear` for all view or blade files.

## 4. Running the Project Locally

- **Starting the Development Server:**

**php artisan serve**

This will start the server on `http://127.0.0.1:8000` by default

- For running specific ports use the below command

**php artisan serve --host=your\_ip\_address --port=your\_specific\_port**

## 5. Third-Party SMS integration

- <http://api.smsbrain.in/1.2/appsms/send.php>

**user :- your\_user\_name**

**passwd :- your\_password**

**senderId :- your\_sender\_id**

## 6. Controller and Service Class List

| Module Name      | Method | URL             | Model            | Controller                                         | Service Class | Function Name       |
|------------------|--------|-----------------|------------------|----------------------------------------------------|---------------|---------------------|
| Login            | GET    | login           | App\Models\User; | App\Http\Controllers\Auth\LoginController          | -             | showLoginForm       |
| Login            | POST   | login           | App\Models\User; | App\Http\Controllers\Auth\LoginController          | -             | login               |
| Reset PIN        | GET    | forgot-pin      | App\Models\User; | App\Http\Controllers\Auth\ForgotPasswordController | -             | showMobileResetForm |
| Reset PIN        | POST   | password-mobile | App\Models\User; | App\Http\Controllers\Auth\ForgotPasswordController | -             | sendMobileResetLink |
| OTP Verification | GET    | otp-verify      | App\Models\User; | App\Http\Controllers\Auth\ForgotPasswordController | -             | otpVerify           |
| Reset PIN        | POST   | send-otp-mobile | App\Models\User; | App\Http\Controllers\Auth\ForgotPasswordController | -             | sendOtp             |
| Reset PIN        | GET    | password-reset  | App\Models\User; | App\Http\Controllers\Auth\ResetPasswordController  |               | showResetForm       |

|                     |        |                         |                               |                                                         |                                  |                        |
